

LABOUR MANAGEMENT SERVICES

Labour and Social Security advice

→ Advisory and guidance services on employment and Social Security rights and obligations for companies and employees, including hiring, dismissals, contributions and benefits.

Payroll management for companies and self-employed workers

→ Preparation, processing and control of payrolls for companies and self-employed workers, ensuring full compliance with current wage and contribution regulations.

Business management: contracts, Social Security, self-employment, company registrations and deregistrations, etc

→ Comprehensive advice and management of all labour and Social Security matters for companies, including the drafting of contracts, registration and deregistration of employees, self-employed registration and company start-up or closure procedures.

Retirement and disability studies

→ Analysis and planning of retirement and disability benefits, providing detailed information on rights, required procedures and available options.

Pension Procedures before the Social Security Administration

→ Full management of applications and procedures for obtaining pensions before the Social Security system, including retirement, disability and other contributory benefits.
